# 6   CLI IMPLEMENTATION (PART 2)

| Directions: | Date & Time Answered: |
| --- | --- |
| <ul><li>Answer the questions below concisely.</li><li>Place your answers on a document and save them into a PDF format.</li><li>Submit the PDF file into our corresponding submission portal.</li><li>Or you may answer it directly in the Schoology create tab when clicking submits assignment button.</li></ul> | Score: |

**Note:  Think that you are doing the following tasks in the CMD window. The following scenarios are continuous.**

**Direction:**  Write the exact internal command to execute the requirement on each scenario. (5 pts each)

1. **Your current directory is D:\OPESYS>, create a word document with a message.**

2. **Create an empty spreadsheet file on the same directory.**

3. **Change to the root directory then create another directory and name it with your lastname.**

4. **Delete all the files in the OPESYS directory.**
